- Funding for this housing project is nearly finalized as of September 2021
- A total of 25 homes will be completed with a latrine and electricity
- Funded by Clinton UMC

What does this all mean?

Within the next several months, Rainbow Network will construct at least 145 houses for families living in extreme poverty. These projects will provide hundreds of people with their first safe, secure home, which will improve nearly every aspect of their life.

There is still time to get involved in any of these projects and make an impact in the lives of others. You will forever be a part of any housing project you support and play a vital role in assisting families living in extreme poverty to build a better future for themselves.

Visit rainbownetwork.org/housing or email us at info@rainbownetwork.org to join this life-changing work.
